

## Lakeland Legends Youth Baseball Powered by Under Armour

**The Lakeland Legends Youth Baseball Program** is looking for sponsors to assist in furthering the development of youth participation in the game of baseball. We are a 501C charity organization (Tax ID # 01-0917335) established in 2008.

Our goal is to provide a high-level baseball program to an estimated 250 kids, ranging from 8 to 18 years old. All teams consist of players from local and surrounding areas of Central Florida and Polk County.

We have purchased land located in Bartow, the heart of Polk County in which all our teams will now call their "home base".

It is a property with 2 large structures that will become batting cages and a smaller building that will become office space, work out rooms, as well as additional rooms for parent/player meetings and fellowship.

Our goal is to have something that is none other like it in Central Florida - a large facility that not only has the listed features above but in addition the plan is to have

2 fields consisting of a practice infield, a full-size baseball field and multiple pitching pens, as well as an outdoor track for conditioning for all ages! We also have girls' softball and with the purchase of this facility, will be looking to expand that program as well.

Lakeland Legends would like to personally thank you for your consideration - as any and all donations will truly help in the succession of keeping our children playing baseball and softball within our community for many years to come.
